Figure 9D

The diagram illustrates a multi-ported electronic device, likely a multi-chip module, with a central substrate and multiple ports. The device is shown in a perspective view, highlighting its symmetrical design. Key components and labels include:

- 28**: Points to the outer edges or side walls of the device.
- 30**: Points to the top and bottom surfaces of the device.
- 32**: Points to the central region or core of the device.
- 48**: Points to the inner surfaces or walls of the central region.
- 50**: Points to the top and bottom surfaces of the central region.
- 176**: Points to the inner surfaces or walls of the central region, specifically the top and bottom surfaces.
- 178**: Points to the outer edges or side walls of the central region.
- 194**: Points to the top and bottom surfaces of the central region, specifically the top and bottom surfaces.
- 196**: Points to the inner surfaces or walls of the central region, specifically the top and bottom surfaces.
- 198**: Points to the top and bottom surfaces of the central region, specifically the top and bottom surfaces.
- 200**: Points to the inner surfaces or walls of the central region, specifically the top and bottom surfaces.
- 202**: Points to the inner surfaces or walls of the central region, specifically the top and bottom surfaces.
